

May 14
Meeting Room 20
08:30 - 10:30

Topic: Dealing with Risks

Climate change adaptation in the context of extremes: Exploring drought and flooding governance

Programme

Chairs:

Dr Alison L Browne, University of Manchester, UK;

Dr Catherine Butler, University of Exeter, UK

Time	Programme
08:30 - 08:45	Ashfaque Ahmed Soomro, Research and Development Foundation, Pakistan (presenting author) Identification and effectiveness of autonomous adaptation strategies in Thar Desert Pakistan.
08:45 - 08:50	Q&A
08:50 – 09:05	Alison Browne, University of Manchester, UK (presenting author); Isabelle La Jeunesse, University of Tours; Cheryl de Boer, University of Twente; Ulf Stein, Ecologic Institute Governing for drought and water scarcity adaptation in the context of flooding recovery: The curious case of Somerset, UK.
09:05 - 09:10	Q&A
09:10 - 9:25	Simo Haanpää, Aalto University, Finland (presenting author) Privatizing the risk of floods – discussing the multiple implications of changes in flood insurance policies in Finland.
09:25 - 09:30	Q&A
09:30 - 09:45	Kate Walker-Springett, University of Exeter, UK (presenting author); Catherine Butler, University of Exeter, UK Flooding on the Somerset Levels: An opportunity for greater public participation in governance?
09:45 - 09:50	Q&A
09:50 - 10:05	Meghan Alexander, Middlesex University, UK (presenting author); Sally Priest, Middlesex University, UK “In the pursuit of resilience” – just how future-proof is England to flooding.
10:05 - 10:10	Q&A

10:10 - 10:25	PANEL DISCUSSION: Chaired by Dr Catherine Butler, University of Exeter, UK Title of presentation Panel Discussion on Climate change adaptation in the context of extremes – exploring drought and flooding governance.
10:25 - 10:30	Q&A Continuation of Questions from Panel Discussion

Poster:

Climate and Climate change Scenarios in the Thar desert ecosystem of India	Dr. Poonia Mr., Surendra, Jodhpur
